MONITORING REGISTER

CASE MANAGEMENT

Set the frequency of your transaction monitoring. Our consultants will provide heat maps and data tables to ensure your business has ongoing and readily available data for interpreting transaction risks.

We provide transaction data in a variety of visual reports including Bar Chart, Heat Map, Data Tables and a detailed Risk Register. Drill down filters are available for your analysis should you require.

When we identify a red flag, our Case Management feature enables your business to track and report actions and findings. Closing the case will automatically change the red flag to green.

PART OF SOMETHING BIGGER

AML360 Outsource focuses on reducing the cost of anti-money laundering compliance without compromise to quality.

CUSTOMER DUE DILIGENCE

Know Your Customer

Our consultants will ensure your business obtains mandatory data for customer due diligence. We take care of identity verification, risk profiling and ongoing monitoring. We provide weekly reports to ensure your managers have knowledge on the status and key data of your high risk customers.

Bespoke Data

We develop customer data forms and profiling modules that are tailored to your business. We match your requirements to your legislative framework then embed into your online compliance dashboard. Our approach is unique and effective. We provide peace of mind.

Instant Knowledge

Your AML360 Outsource Dashboard provides you access on a 24/7 basis. After logging into the Dashboard you can download heat maps and reports on current risk and compliance status. Your data remains up-to-date and readily available on an ongoing basis.

AML360 Outsource is represented by former senior managers at banking corporations, including an AML Adviser from a Central Bank. We know what businesses need and we know what regulators want. Our systems are designed to enable small and medium sized businesses to meet compliance easily and effectively.

All outsourcing services can be configured to your specific needs.

Interpret risk from snap-shot charts and tables. Keep senior managers informed through PDF reports or assign permissions to dashboard charts. AML360 Outsource is the perfect solution for keeping on top of compliance obligations.

OUR APPROACH TO COMPLIANCE & RISK MANAGEMENT

Our outsourcing model provides businesses with a low cost alternative to meeting regulatory expectation. We offer outsourcing services to single business entities and corporate groups. This includes best practice for Business or Group Risk Assessments, Customer Onboarding, Sanctions and PEP Screening, Customer Profiling, Transaction Monitoring, Ongoing Due Diligence, Senior Management Reporting and Compliance Reviews.
